

## Features

- 24VAC 6.5W coil
- Normally closed
- Brass body
- 1/4" BSP connection
- Direct acting

Although this is a 24VAC coil it is suitable for use on all TREATMENT TECH controllers with a 12VDC solenoid output.

## Specifications

Compatible fluids	Air, water, oil
Orifice size	2.5mm
CV value	0.23
Fluid connection	1/4" BSP
Maximum viscosity	20 CST
Working pressure range	0 - 800kPa
Maximum pressure	1100kPa
Temperature range	-10 to 80 degrees C
Voltage ranges	24VAC 50Hz +/- 10%, 12VDC +/- 10%
Insulation	F class
Body material	Brass
Seal material	NBR
Terminations	4.5mm male quick connect on 120mm leads
